- 12** Quick rules recap

Everything you need to log in, learn, take your quiz, and earn your certificate.

1. Signing in

The BCJ Learn sign-in screen

The BCJ Learn sign-in screen

1. Go to your BCJ Learn link and enter your **work email** and **password**.
 - Use the eye icon to show/hide your password.
 - If your account has **two-step verification** on, after your password you'll get a **6-digit code by email** — enter it to finish signing in. You can tap **Resend code** if it expires (codes last 10 minutes).
2. **Forgot your password?** Click "**Forgot password?**", confirm your email, and click **Send reset link**. Check your inbox and follow the link to set a new password.
3. After signing in you land on your **Dashboard**.

2. Your dashboard

Your training dashboard

Your training dashboard

Your home screen shows:

- **Your next module** — a large card showing where you stand for the upcoming module (see "Quiz status" below). A "**Open materials**" button takes you into the module to pre-study, with a note like "3 days to training day."
- **Check-in card** — appears on seminar day once your trainer opens check-in (see "Check in").
- **Program progress** — a ring showing how much of the 5-module program you've completed.
- **Your 5-module program** — a row of mini-cards (M1–M5). Each shows a status: a green check if **passed** (with your score), "**Up next** →" for the next one, "**X of 3 attempts left**" if you need a retake, or a lock if you're **out of attempts**.
- **Your recent activity** — your latest passes/attempts.
- **Your stats** — modules passed, average score, your market, and your status.

3. Modules

The 5-module program list

The 5-module program list

Open **Modules** to see the whole 5-module program. You can:

- **Search** modules by name.
- **Filter** with the tabs: **All**, **To do**, **Needs action** (retake or locked), **Passed**.

- Each card shows the module number, title, description, training day, content counts, and a **status badge**:
 - Available now** — ready to study / take when the seminar opens.
 - In progress** — you've started.
 - Retake** — you didn't pass; shows "**X of 3 attempts left.**"
 - Out of attempts** — you've used all 3; your trainer will help.
 - Passed** — with your score.

Inside a module

Inside a module — details and the seminar outline

Inside a module — details and the seminar outline

- Pre-study (before the seminar):** scroll to "**Seminar outline.**" Every lesson lists its content (videos, documents, slides, links). The "**Available to preview now**" badge means you can open and study any of it **before** the seminar — tap an item to view it. It opens **right inside the app** — Word, PowerPoint, Excel, PDFs, images and video all preview in place, no download needed. This is optional but helps you prepare.

Any file — here a Word document — previews right inside the app

Any file — here a Word document — previews right inside the app

- Required resources:** if you see a yellow "**Sign these required resources before the quiz**" banner, open each listed resource, read it, and tap "**I have read and understood.**" The quiz stays locked until all are signed.
- How this works** card explains that the module is delivered as a live in-person seminar, then you take the quiz right after.

4. Check in at the seminar

On training day, once your trainer starts the session, a **Check-in card** appears on your dashboard and module page:

- The trainer shows a **4-digit code** on the room screen.
- Type the code into the card and tap **Check in.**
- You'll see "**You're checked in**" — sit tight and listen. The quiz unlocks the moment the trainer **ends the session.**

If your phone/laptop is dead and you can't check in, you can still be in the room — talk to your trainer; they can open the quiz for you.

5. Taking the quiz

The quiz intro screen

The quiz intro screen

When the seminar ends, your **Quiz status** card flips to "**Quiz is open.**" Tap **Start [Module] Quiz.**

Intro screen shows: number of questions, the pass mark (usually **85%**), the time limit (if any), and "Multiple choice." If this is a **retake**, you'll see a note that the questions cover the same material, reworded.

While taking it:

- One question at a time. Read it, pick the best answer, tap **Next.**
- A progress bar and a timer are at the top. If it's timed and time runs out, it submits automatically.
- Use **Previous** to go back. The bottom shows how many you've answered.

- On the last question, tap **Submit quiz**.

Your result:

- **Passed (85%+):** "Congratulations, you passed!" with your score, confetti, and a **View certificate** button. The next module unlocks next month.
- **Not passed:** "Not quite there" with your score and how many **attempts you have left**. A **retake is automatically scheduled** — review the material and try again. After your **3rd** miss the module **locks** and your trainer is notified to help. You can tap **Review my answers**.

The 3-attempt rule

You get **3 tries** total per module (1 first attempt + 2 retakes). Retakes cover the **same material, reworded**. After 3 misses the module locks and your Department Lead reaches out.

6. Reviewing your answers

A question-by-question attempt review

A question-by-question attempt review

From a finished attempt (or **My Progress** → **a quiz**), open the attempt to see a **question-by-question breakdown**:

- Every question is listed, **collapsed**, with a **Correct / Incorrect** marker.
- Tap a question to expand it and see **your answer**.
- If you **passed**, the correct answer is shown on each.
- If you **didn't pass**, the correct answers are **hidden** on the ones you missed — go relearn the material, then retake.

7. Your certificate

After you pass, open **View certificate** (from the result screen or the module's status card). It's a branded BCJ certificate with your name, the module, your score, and the date. Tap **Print / Save as PDF** to print it or save a PDF copy.

8. Resources

The Resources hub, grouped into department folders

The Resources hub, grouped into department folders

Open **Resources** for documents your team has shared (policies, guides, SOPs):

- Resources are grouped into **department folders** — tap a folder to open it. Folders that have items you still need to acknowledge open automatically and show a **"X to review"** badge.
- A banner at the top tells you how many resources **need your attention**.
- Tap a resource to read it (PDF, document, video, or text). If it requires acknowledgement, tap **"I have read and understood"** at the bottom.
- A resource can be **updated** — if it changes you may be asked to acknowledge the new version again. New/updated items are badged.

9. My Progress

My Progress — your full training history

My Progress — your full training history

My Progress is your full training history:

- Top: **modules passed**, **average score**, **total attempts**.
- **Quiz history** — every attempt (newest first, paginated): module, first-attempt vs retake, pass/fail, date & time, score, and a **Review answers** link.
- **Module-by-module** — each module with your latest status and score, or its scheduled date if you haven't taken it yet.

10. Notifications

The Notifications inbox

The Notifications inbox

The **Notifications** inbox collects your invites, reminders, results, and alerts:

- Filter by **All / Unread / Results / Reminders / Alerts / Invitations**.
- Tap an item to open it (and mark it read). Use **Mark all read** to clear them.

11. My Profile & language

My Profile

My Profile

Open **My Profile** to see your details (name, email, phone, market, title) and your progress stats. Use **Edit profile** to update your info.

Switch to Spanish / English

You can switch the app between **English** and **Español** in three places: the **language toggle on My Profile**, the **account menu** (your avatar, top-right), or the small **floating language button** at the bottom-right of any screen. The whole employee app (menus, your dashboard, modules, the quiz, resources, progress, your certificate) switches to the chosen language. Quiz questions appear in Spanish when a translation is available; if not, they fall back to English so the quiz always works.

Switch language from the account menu

Switch language from the account menu

Quick rules recap

- **Pass = 85%** (or whatever your module requires).
- **3 attempts** total; 3rd miss locks the module and your trainer helps.
- **Content is open before the seminar**; the **quiz** opens after the seminar (check in + trainer ends session).
- **Sign required resources** before the quiz unlocks.
- **Certificate** on pass; **annual refresher** recommended.

- Switch language any time — from **My Profile**, the **account menu**, or the **floating button**.

See the FAQ for quick answers to common questions.
